This report should be retained as part of the credit analysis required under Regulation 703.

EXECUTIVE SUMMARY

Louisiana Corporate continues to maintain a high quality investment portfolio which adheres to the corporate's strict asset liability management guidelines. Exposure to interest rate fluctuations (interest rate risk) is minimal, due to a high percentage of liquid and floating rate investments and an active and stringent asset liability management process.

Louisiana Corporate's total assets were \$180.5 million as of June 30, 2007. Net income for the six months ended June 30, 2007 was \$166 thousand.

ASSET LIABILITY MANAGEMENT

Louisiana Corporate's asset liability management policies are stricter than minimum regulatory requirements and require the corporate to closely match the maturity and repricing characteristics of its member liabilities to its assets. Louisiana Corporate operates at the "Base" level of NCUA Rules and Regulations Part 704, which provides for the most conservative of several operating levels available to Corporate Credit Unions. This effectively minimizes the corporate's interest rate risk, or its exposure to net income fluctuations during periods of changing market interest rates and liquidity levels.

Louisiana Corporate monitors its exposure to changing interest rate levels by performing a number of analytical procedures, including Net Economic Value (NEV) analysis. This analysis is performed quarterly and measures the effect of an immediate and sustained 300 basis point upward and 300 basis point downward change in interest rates on the corporate's net interest income and NEV. Louisiana Corporate's NEV ratio at June 30, 2007 exceeds regulatory requirements; equivalent to 182% of the regulatory minimum.

CAPITAL

A corporate credit union's capital strength level is gauged in relation to the degree of investment risk it assumes. Louisiana Corporate continues to maintain a strong capital level combined with a low degree of credit and interest rate risk. Louisiana Corporate does not enter into swap agreements, derivative hedge positions, or take exposure to member business loan participations. As of June 30, 2007, Louisiana Corporate's retained earnings totaled \$3,627,740. Membership Capital Accounts totaled \$7,965,179. Member Paid-In-Capital was an additional \$3,984,021. Core Capital, as defined by NCUA Rules and Regulations equaled \$7,611,762 and the Core Capital Ratio was 4.85%; the Capital Ratio, as defined by NCUA Rules and Regulations was 10.01% and exceeded regulatory requirements; equivalent to 121% of the regulatory minimum. The corporate's net income of \$166,478 through June 30, 2007 exceeded budget by 118%. The corporate exceeded the regulatory threshold for earnings retention requirements during December, 2006 and was not subject to earnings retention requirements at June 30, 2007.

CREDIT QUALITY

As of June 30, 2007, 94% of Louisiana Corporate's assets were invested, 5.3% were cash or cash equivalents, and 0.7% were in outstanding loans to member credit unions. These loans were secured by share deposits and other assets. The following chart depicts the distribution of Louisiana Corporate's investments at June 30, 2007:

The following table summarizes the results of Louisiana Corporate's NEV analysis as of June 30, 2007:

Interest Rate Scenario	NEV Ratio	NEV in \$	% Change from Base	Regulatory Requirement
+300 bps	8.03%	14,206,728	-6.93%	>-15%
Base	8.45%	15,263,772	> 3%	> 3%
-300 bps	8.56%	15,734,579	+3.08%	>-15%

U.S. CENTRAL INVESTMENTS

As of June 30, 2007, 74% of Louisiana Corporate's total investment portfolio was invested in liabilities of U.S. Central Federal Credit Union, Lenexa, Kansas. U.S. Central acts as a wholesale corporate credit union for corporate credit unions that are its member/owners. U.S. Central is insured by the National Credit Union Share Insurance Fund (NCUSIF), administered by the National Credit Union Administration. Louisiana Corporate's high level of participation at U.S. Central serves to minimize its risk. The following ratings, serve as a testament to U.S. Centrals credit quality*:

Long-Term Debt

Rating Service	Rating
Standard & Poor's	AAA
Moody's	Aa1
Fitch, Inc.	AAA

Short-Term Debt

Rating Service	Rating
Standard & Poor's	A1+
Moody's	P1
Fitch, Inc.	F1+

* Ratings as of June 30, 2007

ASSET BACKED SECURITIES (ABS)

Louisiana Corporate utilizes limited investment in asset backed securities to diversify its portfolio, and maximize return to members consistent with sound asset liability management policies. These securities comply with NCUA Rules and Regulations Part 704, as well as the corporate's investment policies, which further restrict the types and amounts of securities which may be held. All LaCorp ABS carry the highest credit ratings attainable from major ratings agencies, and are diversified by collateral type, geographic location of underlying collateral, and interest rate index type. Credit trends on all non government sponsored enterprise securities are reviewed monthly by an external party, CNBS, LLC.

MORTGAGE BACKED SECURITIES (MBS) AND OTHER INVESTMENTS

Like ABS, Mortgage Backed Securities (MBS) and other investments are utilized to provide further diversification of the portfolio, while enabling the corporate to maximize its return to members consistent with sound asset liability management principles. These securities must pass industry standard volatility tests at the time of

purchase, and are subjected to monthly re-testing. These practices provide for a qualification and testing procedure which is even more stringent than required regulatory standards. In accordance with LaCorp policies, these securities are limited in amount and maturity and must be adequately diversified in terms of collateral type, geographic location, and interest rate indices. The remainder of LaCorp's investment portfolio is invested in CUNA Mutual Medium-Term Notes, the Shay Ultra-Short Mortgage Fund, CNBS, LLC, Primary Financial, LLC, CU Business Group, LLC & the Federal Home Loan Bank (FHLB) of Dallas. CNBS, LLC. is a CUSO, which provides brokerage & ALM services to financial institutions and is owned by a network of corporate and natural person credit unions. Primary Financial, LLC is a corporate credit union owned CUSO which provides certificate of deposit brokerage services to credit unions. CU Business Group, LLC is a corporate credit union owned CUSO providing business loan and services consulting to credit unions. The corporate membership in the FHLB of Dallas provides an additional potential source of liquidity and investment opportunity. The Shay Ultra-Short Mortgage Fund invests in mortgages with extremely short duration and carries a fund rating of AAaf, the highest credit rating attainable.

LIQUIDITY

Louisiana Corporate acts to manage its investment portfolios in accordance with its member's needs for liquidity. Accordingly, LaCorp monitors the liquidity of member deposits on a monthly basis. Louisiana Corporate maintains a high percentage of its investments in overnight deposits and further strengthens its liquidity position by maintaining \$53 million in committed and advised lines of credit with U.S. Central Credit Union. Louisiana Corporate maintains membership in the Federal Home Loan Bank of Dallas which is an additional alternative source of liquidity.

OVERSIGHT

Louisiana Corporate Credit Union is chartered by the State of Louisiana and insured by the National Credit Union Share Insurance Fund (NCUSIF). The National Credit Union Administration, Office of Corporate Credit Unions, and the State of Louisiana, Office of Financial Institutions conduct annual Regulatory examinations and insurance reviews jointly. The corporate receives an annual CPA opinion audit, and engages external firms to perform quarterly internal control reviews and an annual ACH compliance review. The corporate also engages an external financial advisory firm to perform quarterly asset-liability management reviews and net economic value modeling. An external computer-consulting firm performs monthly on-site network security services and an annual network intrusion test. An Information Technology Security Review was performed in May, 2007 by an external CPA firm."
